We love adventure sports and being in God's creation. We are so excited to share our love for the outdoors and our love for God as we work along side Northstar Outdoor Adventure lodge in Nagano in the Japanese Alps.

Living in Japan these past few years, though faced with challenges, we feel all the more compelled to remain in Japan and shine the Light of God's love to Japanese people.

Please pray with us as we work to see Japan radically changed.

If you would like to support us financially, please send a check to
